standard mortise
lock

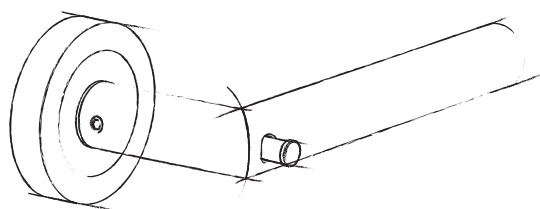

THE TECHNOLOGY IS IN THE SPINDLE

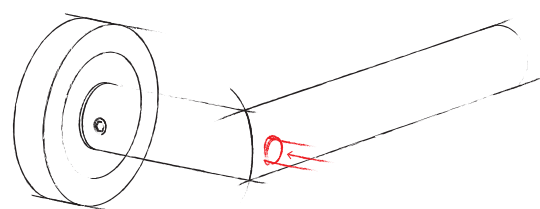

The KD Basic owes its innovative functionality to a patented technology in the spindle. It can therefore be combined with any mortise lock with an 8 x 8 mm lock follower. Neither the lock nor the lock pocket need to be specially prepared.

Intuitive. Push for privacy

KD Basic - for any standard lock

The functionality of the privacy pin technology convinces with its easy handling.

To lock the door, simply push the pin into the door handle.

To open the lock, simply press down on the door handle. If the outside door handle is operated when the door is locked, it simply turns freely and no additional force is exerted on the lock and square spindle.

YOUR BENEFITS

- Close and open with one hand
- Intuitive unlocking by pressing down the door handle
- Compatible with any 8mm mortise lock follower
- Extremely durable thanks to the decoupling of the outer door handle, reducing stress on the spindle and lock

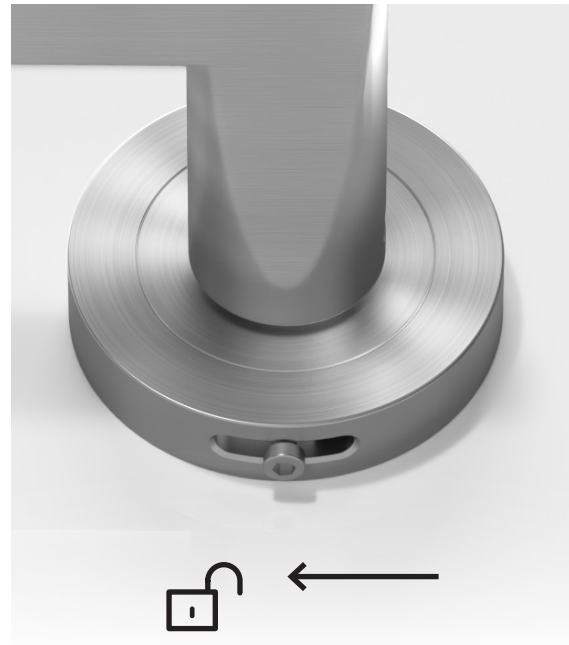

Safe. Push for privacy

EASY TO MOUNT

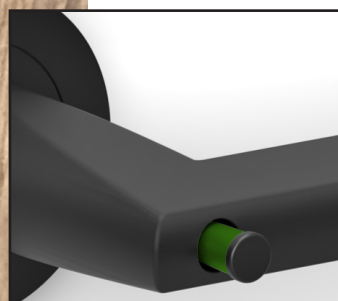

1. Insert the set pre-assembled handle onto one side into the lock (outside)
2. Screw on the mounting plate onto the opposite side
3. Fasten the inside door handle to the mounting plate with the screw ring

4. TIGHTEN THE SET SCREW!

SIMPLE AND SECURE

Tool-free emergency unlocking by sliding the screw on the underside of the rose.

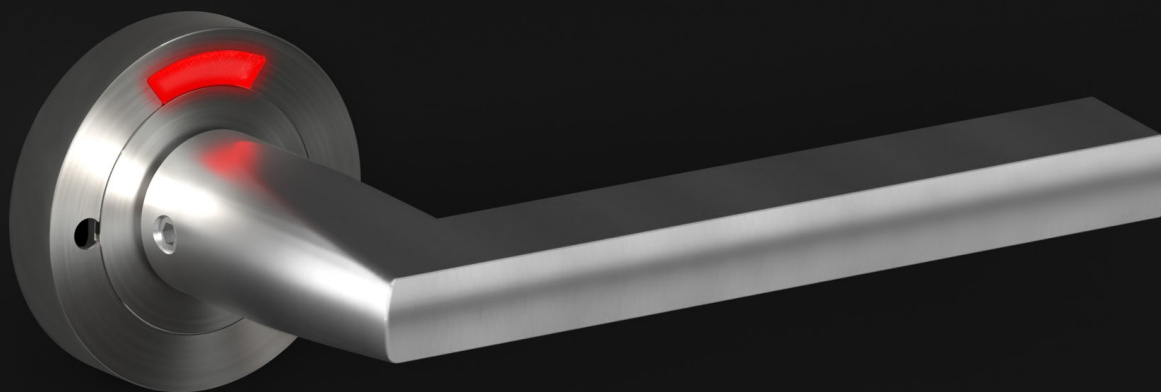

KD Basic is optionally available with a green or colour matched PIN.
